Operational Status Inquiry

Dear Licensee:

This is in reference to your recent letter dated March 16, 1992 and to your recent phone conversation with Mildred Williams of our Division's staff.

Your letter states that the station has not broadcast since April, 1988, when the station's original tower fell during a severe thunderstorm. Our records do not indicate that the licensee notified the Commission that the station went silent or that it requested FCC permission to remain silent for any extended period of time.

Section 73.1740(a) (4) of the Commission's Rules states that if

causes beyond the control of the licensee make it impossible to adhere to the operating schedule of this section or to continue operating, the station may limit or discontinue operation for a period of not more than 30 days without further authority from the FCC. Notification must be sent to the FCC in Washington, D.C. not later than the 10th day of limited or discontinued operation. During such period, the licensee shall continue to adhere to the requirements in the station license pertaining to the lighting of antenna structures. In the event normal operation is restored prior to the expiration of the 30 day period, the licensee will so notify the FCC of this date. If the causes beyond the control of the licensee make it impossible to comply within the allowed period, informal written request shall be made to the FCC no later than the 30th day for such additional time as may be deemed necessary.

Further, the licensee must demonstrate in the request that all steps to resume normal operation are being undertaken in an expeditious and timely fashion.

Since the station remains silent to this date, special temporary authority to remain silent must be requested, pursuant to Section 73.1635(a) of the Commission's rules.¹ Your request must explain why the station failed to properly notify the Commission of the WHSK's silence, and you must indicate what steps are proposed to return the station to on-air status. We note also that any request for special temporary authority must also be accompanied by the licensee's certification regarding its compliance with Section 5301 of the Anti-Drug Abuse Act of 1988. The suggested format for this certification is enclosed.

Failure to respond to this letter within twenty days of the date of this letter will result in further action by the Commission. If you have any questions regarding the content of this letter, please contact Glenn Greisman, Industry Analyst, at (202) 632-3954.

FILING INSTRUCTIONS

Broadcast station licensees are required to afford equal opportunity to all qualified persons and to refrain from discriminating in employment and related benefits on the basis of race, color, national origin, and sex. See Section 73.2080 of the Commission's Rules. Pursuant to these requirements, a license renewal applicant who employs five or more full-time station employees must file a report of its activities to ensure equal employment opportunity for women and minority groups (that is, Blacks not of Hispanic origin, Asians or Pacific Islanders, American Indians or Alaskan Natives, and Hispanics). If minority group representation in the available labor force is less than five percent (in the aggregate), equal employment opportunity (EEO) program information for minority group members need not be filed. However, EEO program information must be filed for women since they comprise a significant percentage of virtually all area labor forces. If an applicant employs fewer than five full-time employees, no equal employment opportunity activity information need be filed.

A copy of this report must be kept in the station's public file. These actions are required to obtain license renewal. Failure to meet these requirements may result in license renewal being delayed or denied. These requirements are contained in Section 73.2080 of the FCC Rules (47 CFR 73.2080), and are authorized by the Communications Act of 1934, as amended.

☒ If your station employs fewer than five full-time employees, check the box at left, complete the certification below, return the form to the FCC, and place a copy in your station's public file. You do not have to complete the rest of the form.

If your station employs five or more full-time employees, you must complete all of this form and follow all instructions.

☐ If minority group representation in the available labor force is less than 5 percent (in the aggregate) and you choose not to file EEO program information for minority groups, check the box at left and complete the rest of this form with only the information for your program directed towards women.

The purpose of this document is to remind broadcast station licensees of their equal employment opportunity responsibilities and to provide the licensee, the FCC and the public with information about whether the station is meeting these requirements.

GENERAL POLICY

A broadcast station must provide equal employment opportunity to all qualified individuals without regard to their race, color, religion, national origin or sex in all personnel actions including recruitment, evaluation, selection, promotion, compensation, training and termination.

A broadcast station must also encourage applications from qualified minorities and women for hiring and promotion to all types of jobs at the station.

I. RESPONSIBILITY FOR IMPLEMENTATION

A broadcast station must assign a particular official overall responsibility for equal employment opportunity at the station. That official's name and title are:

NAME _____ TITLE _____

It is also the responsibility of all persons at a broadcast station making employment decisions with respect to recruitment, evaluation, selection, promotion, compensation, training and termination of employees to ensure that no person is discriminated against in employment because of race, color, religion, national origin or sex.

II. POLICY DISSEMINATION

A broadcast station must make effective efforts to make management, staff, and prospective employees aware that it offers equal employment opportunity. The Commission considers the efforts listed below to be generally effective. Indicate each practice that your station follows. You also may list any other efforts that you have undertaken.

- ☐ Notices are posted informing applicants and employees that the station is an Equal Opportunity Employer and that they have the right to notify an appropriate local, State, or Federal agency if they believe they have been the victims of discrimination.
- ☐ Our station's employment application form contains a notice informing prospective employees that discrimination because of race, color, religion, national origin or sex is prohibited and that they may notify the appropriate local, State, or Federal agency if they believe they have been the victims of discrimination.
- ☐ We seek the cooperation of the unions represented at the station to help implement our EEO program and all union contracts contain a nondiscrimination clause.
- ☐ Other (specify)

III. RECRUITMENT

Indicate each practice that your station follows and, where appropriate, list sources and numbers of referrals.

- ☐ When we place employment advertisements with media some of such advertisements are placed with media which have significant circulation or viewership, or are of particular interest to minorities and women in the recruitment area. VI. AVAILABLE LABOR FORCE

A broadcast station must evaluate its employment profile and job turnover against the availability of minorities and women in the relevant labor market. The FCC will use labor force data for the MSA in which your station is located, or county data if the station is not located in an MSA, to evaluate your station's equal employment efforts. If you use these data in your evaluation, you need not submit them to the FCC.
